

Commercial Usage License

Publishers: Phat Phrog Studios

Official Vendors: Itch.io, GameDevMarket.net, Unity.com, Unreal.com, Fanatical.com & HumbleBundle.com

All of our assets are sold as a royalty free package with a licence that allows the customer to use the content that they then create, in commercial or private projects as below:

A Licence grants to the Buyer a non-exclusive and non-transferable lifetime worldwide rights to use music assets in multimedia projects like online videos (also YouTube), websites, animations, games, films, etc.

Number of users or devices supported: 1 user. Allows for multiple installations as long as the different machines belong to the same user.

1. Purchasers can use assets in their own personal use and commercial projects.

2. A Licence does not allow the Buyer to:

- I) claim seller's original content as their own;
- II) register and sell original content in any store/platform;
- III) redistribute and sublicense other than as part of the relevant project.

3. The Licensee is strictly prohibited from using any artificial intelligence (AI) tools or systems to edit, remaster, manipulate, or otherwise alter the licensed audio tracks. This includes but is not limited to AI-generated enhancements, remixing, stem separation, or mastering. All modifications must be made using traditional digital audio workstations (DAWs) or human-guided editing processes. Any AI-driven alteration of the tracks constitutes a violation of this license.

4. The licensed assets may not be used, in whole or in part, for the purposes of training, fine-tuning, or enhancing artificial intelligence (AI) models, machine learning systems, neural networks, or similar technologies. This includes, but is not limited to, using the assets as input for data mining, algorithm development, or any automated or generative system intended to create derivative content or to analyze, replicate, or learn patterns from the assets.
